Announcement of enrollment in a special training course

The National Certification and Training Center (LLC “NCTC”) announces enrollment in a special training course to prepare for the attestation and subsequent certification in the profession of **"Consulting Engineer (Construction)," "Basic" category**, for foreign citizens or stateless persons residing permanently or temporarily in Ukraine on legal grounds.

Requirements for the “Basic” qualification level (category):

- Higher education (Master’s or Bachelor’s degree) in the fields of "Architecture and Construction," "Mechanical Engineering," "Electrical Engineering," or "Management and Administration."
- At least 5 years of work experience in the construction industry.

Please note that the Certificates will be issued by the Personnel Certification Body accredited in Ukraine as meeting the international ISO 17024 standard.

The obtained certificates may be recognized by other certification bodies accredited under national systems compliant with ISO 17024, facilitating international recognition of professional qualifications.

Start of the special training course is preliminary scheduled for May 2026.

Training Format

The educational process is organized in an asynchronous interaction mode, without interrupting the primary employment of participants.

The training course is led by highly qualified construction industry experts and scientists, with over 70% of lecturers holding academic degrees).

The training format includes:

- consulting the training participants on the course organization and delivery under the relevant professional development program using a specialized distance learning environment;
- organizing access to lectures in English posted on the YouTube channel as part of the professional development program – at least 40 academic hours;
- independent study of mandatory and/or recommended regulations, literature, and informational materials – at least 20 academic hours;
- prompt feedback aimed at timely identification of problematic issues regarding the participants’ comprehension of the professional development program and provision of appropriate practical assistance to them;
- exchange of information, opinions, judgments, etc., which will facilitate the assessment of the participants’ level of knowledge, skills, and motivation to learn, as well as the design and adjustment of the training process to achieve the expected learning outcomes by the professional training participants.

Upon completion of the training course, participants receive 2 ECTS credits, which will be recorded in the professional development certificate.

Application procedure

Applications and documents package shall be submitted to the Personnel Certification Body for the Construction Industry (PCBCI):

 <https://ospbg.org.ua/>

 osp-bg@ukr.net

The application form is attached and can be found on the official websites of NCTC and PCBCI.

List of documents the applicants send to the PCBCI's email:

- a scanned copy of an identity document.
- a scanned copy of an education document (preferably, with an apostille or consular legalization).
- a scanned copy of a construction industry specialist's certificate (if available).
- a scanned copy of a color photograph (3×4 cm).
- a completed declaration of work experience in the construction industry (at least 5 years) (*form attached*).
- a completed application and ethics and certification conditions compliance agreement of the standard form (*form attached*).

If qualification requirements are met, the PCBCI will send a referral for further training, attestation, and certification to the applicant's email.

Costs and terms of participation

Access to the special training is granted after:

- filling out the questionnaire sent to the applicant to prepare the contract;
- signing the contract;
- paying the issued invoice.

 Special training course cost in 2026 is UAH 20,125.00 inclusive of VAT (approximately EUR 400).

After completing the course, NCTC sends a scanned copy of the professional development certificate to the applicant's email (at the applicant's request, we can send the original certificate by post for an additional fee) and sets the attestation date.

Attestation

Attestation of foreign citizens is conducted remotely via ZOOM (rules of taking the remote exam are attached).

Before the scheduled attestation date, the applicant must pay its cost in accordance with the sent contract and issued invoice.

 The cost of attestation in 2026 is UAH 7,500.00 inclusive of VAT (approximately EUR 150).

National Certification and Training Center
